It is with great sadness that I share with you the passing of past student Rowan Seward. Our school community is so fortunate to have known Rowan. It was an incredible privilege to have Rowan as a student and friend. He was an inspiration to all who knew him. We will miss him so much.

Our thoughts are with all his family and friends and especially Fiona, Jodie and Gavin.

Past student Courtney Page has summed up Rowan’s courage in this FUSE 2010 article. It reminds us of the amazing qualities of this special young gentleman.

Courage – rarely found, forever kept

For Cressy District High School year 9 student, Rowan Seward, going to school every day takes amazing strength.

What most the 17-year-old knows apart from his below students is that he has a very rare heart condition, called hypertrophic cardiomyopathy, an Ennaus’s Disease. The disease is hereditary and causes abnormal thickening of the heart muscle, generally of the main pumping chamber of the heart.

The frateral muscles cause the heart to work less efficiently and insufficient oxygen can experience chest pain, shortness of breath, fainting episodes and palpitations.

Unfortunately, some people aren’t even aware that they have Ennaus’s Disease and it can become worse, says Rowan. He is doing his classmates and class like best that he can while still in 1B and enjoy sports with the Australian Rules and cricket.

For his year teacher Nigel Bent said: “Rowan is a courageous, caring and intelligent person with remarkable sports knowledge. Something we can learn from Rowan is that whatever hand you are dealt you’ve got to play it well as well as you can.”

“Sport science is my favourite subject because the science side of sports is the only thing my condition allows me to do,” Rowan said.

“After year 10, I would like to continue my study and travel.

“My ultimate dream would be to manage or coach an NBL team or the Australian cricket side.”

Rowan has overcome some great hurdles to get where he is now. In January 2006, he suffered a stroke and could have easily become very ill, but Rowan takes nothing for granted and lives for the full. He would pass on to be a hard drive to anyone, or for anyone to think that he is not a true person and that they can too.

For more information on how to help people, how to donate or how to contact Life薄akins, please visit www.lassifoundation.com.au. To find out more about the Ennaus's Disease, please visit www.lassi.org.au.

From the Principal

Welcome Back to Term Three.

Welcome to our twelve Japanese students. You are a most welcome inclusion in our school community. We would also like to welcome back Amanda Cross who has started in 8A today.

Welcome back to the first big newsletter and Term Three!
It is a very positive feeling to know that we have returned from holidays with five months remaining for students to set learning goals related to their mid-year reports and really focus on their progress and learning. Having the enormous task of mid-year reporting completed will now allow teachers to really focus on quality teaching and moving students forward in their achievement. I encourage students and their parents/guardians to think carefully and strategically about how they are going to approach this term’s learning and urge them to work diligently in aiming for the reaching of their full potential. What we are requesting of each individual is effort, application, a high degree of self motivation and responsibility. My hope is that students take on this challenge and commitment.

End of Term Two
We finished Term 2 with a very positive and celebratory end of term assembly. The focus of this assembly was to recognise success. Congratulations to all students who were recognised and thank you to Mrs Lester and the Student Leadership Group for co-ordinating this assembly and to those parents who were able to attend.

Being Organised and Prepared
It sometimes takes students time to adjust to the routines of study and retuning to school with the conclusion of holidays. It is vitally important that students smartly return to a good daily routine including regular sleep patterns, a good diet, a settled start to each school day and full preparation for school with the correct uniform and appropriate equipment for all classes. Students who have good preparation and predictable days are able to be more settled and positive in their approach to learning and also their interaction with others. We very much appreciate the support of parents/guardians in helping their children with these daily routines.

School Uniform
We receive fantastic support from our school community in area of school uniform. Nevertheless, I prefer to send out regular reminders about uniform so that students and parents/guardians are clear about what is expected of them. Even though this is the middle of our winter time, this is not an excuse to drop our standards with uniform. I would like to remind students that boys and girls wear plain black shoes. Hoodies are not to be worn to school. Boys wear grey trousers and girls wear navy pants. Puffer jackets and vests do not replace the school spray jacket and are not part of the school uniform.

I look forward to the term ahead and am sure it will provide and feature many opportunities for your children to learn, achieve and excel.

Regards

Annette

International Student Summer Camp 2013 Beijing, China

I know our trip to Beijing International Student Summer Camp in Beijing was successful when I asked the students at the end if they would return, given the chance. The universal reply was, “In a heartbeat!”

The fifteen Cressy students and seven Winnaleah students represented Australia along with Central Coast Grammar School, St Luke’s Grammar School and Tara Anglican School for Girls. Other countries represented from around the world included Canada, USA, UK, Germany, Italy, Spain, Russia, India, Vietnam, Turkey, Korea, Finland, Thailand, Malaysia, Greece, France, Servia, Czech Republic, Austria and China. Cressy students made friends with so many students from so many countries.

Most mornings we started very early with a Chinese breakfast in a massive cafeteria. We attended cultural classes at the Beijing Royal School where we stayed. We learnt and experienced Chinese Kung-Fu, Chinese calligraphy, paper-cut and shadow play, folk music, and dance, Peking Opera and Lianpu, Mandarin and Chinese Ink Painting.

Our itinerary took us all over Beijing most afternoons, to very interesting and amazing sites. We went to the Forbidden City, the Great Wall, Summer Palace, Hu tong, newly opened Garden Expo Park and National Museum of China. The Opening Ceremony was an impressive cultural experience as was the closing ceremony where each country performed an item.

We enjoyed a fair amount of shopping which meant we had to barter with the sellers. Paying in Yuan (which is worth around six times less than the Australian dollar) daily, provided great maths practice. Even though items were cheap for us, it was a lot of money for the Chinese. We visited a Chinese supermarket, the famous Wanfujing Commercial Street. The Silk Market, watched an amazing Kong Fu Show and delighted in the delicious Beijing roast duck.

continued on page 4
81% of Families celebrate Student Achievements!

Parent/Teacher/Student Discussions were held during the last week of Term 2 and Mid-Year reports were shared together. Parents and Carers were able to attend discussions during the week with their child’s teacher/teachers and talk about progress and future learning plans.

At Cressy District High School we are very proud of the partnerships between teachers and parents/carers and this was evident in the smiles, rich conversations and amazing attendance. It is clear that our community cares about the learning progress of children as 81% of families attended Parent/Teacher/Student Discussions. Two classes celebrated 100% attendance!

We thank you for your contribution as parents/carers and look forward to future discussions with you and your child. Parents/carers are warmly invited to make an appointment for discussions with their child’s teacher at anytime – it does not only have to be during Parent/Teacher Student Discussion week!

Remember:
The education of your children is a shared partnership between parents/carers and teachers!

Mrs Anna Goss - Assistant Principal
At the end of June I was lucky enough to spend two weeks in Thailand as part of the BRIDGE Project. The Asia Education Foundation’s BRIDGE Project (Building Relationships through Intercultural Dialogue and Growing Engagement) builds intercultural understanding between students in Australia and our neighbours in Asia.

Cressy District High School has been partnered with Pathumthep Witthayakarn (PTK) School in Nong Khai, Thailand. Through this partnership we hope that both our schools will be able to learn more about each other’s cultures. Our two schools have already started collaborating on projects together, such as a shared wikipage (see link below), doing assignments on each other’s countries and PTK School will also be contributing a couple of pages to our school magazine this year. In the future, we hope that this partnership will continue with the possibility of a student exchange happening.

Facts about Pathumthep Witthayakarn (PTK) School

- PTK School is located in Nong Khai, Thailand.
- The school caters for Grades 7 to 12 and there are about 3500 students in the whole school.
- Every day at 8.00am all the students and teachers gather for a whole school assembly. At this assembly the students sing the school song, the Thailand national anthem and also have a couple of minutes of meditation to prepare for the rest of the day.
- The students can have up to eight lessons a day. Each lesson goes for about an hour. The last class finishes at 5:40pm.
- There is no set lunch time. The students eat whenever they have a free period.
- There are three cafeterias for the students to eat at. The largest cafeteria is a food hall with about ten different stalls of food including; noodles, fried chicken, traditional Thai food and also ice-cream.
- Students are not allowed to wear shoes inside the building, so they will usually leave them outside and walk around in their socks.
- During weekends, after school and during free periods, most students will get extra tutoring for subjects or practice guitar and other instruments.
- The students absolutely love Australia and really want to come visit us and learn English.

Find out more about Pathumthep Witthayakarn School by having a look at the display at the front of the school.

*Nigel Bent / HPE Teacher*
Last week, we had a fantastic Science performer visit our school. Richard Scholes delighted all students from grades Kindergarten to grade 10 with a spellbinding and informative demonstration on scientific concepts such as chemical reactions, air pressure and optical illusions. Who would have thought that magic was related to science. Mr Greg Titmuss informed me that his Applied Science class would explore a lot of these experiments. Sounds like a class I would love to be in!

Nelson Tabe - Music/ Drama Teacher

Welcome to our Japanese Students

This Monday, it has been a wonderful experience welcoming our Japanese students. It was amazing to witness the speed in which our Cressy students and our new arrivals bonded with each other. It is such an opportunity for our students to connect with another culture. Their curiosity has been displayed with respect.

Our Japanese students will be staying with us for four weeks. They will learn some extensive English and will be joining many other classes.

Ms Patricia Godillon
Dear Parent

Pathway planning sessions with your son and/or daughter has so far seen exploration of work and/or further study options, course ideas for next year and opportunities for exploring areas of interest through CAP (Career Awareness Programs) with both myself and all the Grade 10 teachers.

Grade 10 students have already attended a UTAS taster session and will soon be participating in College orientation days. All Pathway Planning Officers and supporting teachers help to prepare students and also attend on the day.

Following the college orientation visits, we will provide further guidance on choosing possible subjects for Year 11 and 12. Students will also receive a copy of the Year 11 and 12 Course Guide for 2014. This guide is a valuable resource for all information relating to Year 11 and 12.

College enrolment requires a Transition Profile to be completed and that can only be done through attending Pathway Planning. I look forward to continue to work with your child this term in preparation for enrolment later in the year.

If you wish to discuss anything about Pathway Planning please feel free to contact myself at the school as below.

With regards,
Danette Haas - Pathway Planning Officer - Department of Education
63976281

**Did you save your cash bonus for school costs?**

Did you budget and use your cash bonus wisely?

Saver Plus provides **free financial education**, budgeting and savings tips to assist you in making your money go further!

Saver Plus will even match your savings dollar for dollar, **up to $500** towards education costs. There’s no catch!

To be eligible you need to have:

- a Health Care or a Pensioner Concession Card
- a child at school or starting next year
- some regular household income, e.g. you or a partner may have casual, part-time, full-time or seasonal work.

Contact Verity Tunevitsch at The Smith Family on 6326 7716 / 0457 715 248

Contact Verity Tunevitsch, your local Saver Plus Worker:

03 6326 7716 / 0457 715 248 or

verity.tunevitsch@thesmithfamily.com.au

Saver Plus is developed by ANZ and the Brotherhood of St Laurence and is delivered in Northern Tasmania by The Smith Family.

Saver Plus is funded by ANZ and the Australian Government.

---
Welcome back to Term 3. I hope you all had a restful break. I would like to personally thank all the parents/guardians that braved the cold in the last week of Term 2 to attend Parent/ Student/ Teacher interviews. This is a fabulous way to find out about your child and the progress he/she is making. Please remember that if you were unable to attend a meeting last term you are more than welcome to make one for this term.

**Premiers Reading Challenge**
This fabulous initiative is still going. Children are encouraged to read ten books in ten weeks. As children complete their reading they are encouraged to place their completed forms into the green box outside my office as we are having random draws for prizes to encourage children to participate.

Congratulations to Lily McGee and Luke Bowerman who were drawn out of the box this week.

**Lunch boxes**
As a Mum I understand the difficulties involved with trying to provide an exciting lunch box for your child that they will stop and eat while at school. As educators it is our role to talk to children about the importance of a balanced diet, including a balanced lunch box. It is lovely to be able to give your child a treat with their lunch but it is important to remember that a healthy and balanced diet will do nothing but help your child with their education. In most of our primary classes we also have a fruit and water break. This is a wonderful opportunity to pack some fruit and actually have your child eat it.

**Soup thanks to Move Well Eat Well**
This week our class soup roster is beginning. This is not going to be lunch or sold but will be more of a taster for our students to taste. Each class will be rostered on to make a soup and share it with the primary children. This week 4/5 Brophy will be making and sharing soup. Please keep an eye out in our next big newsletter for photos of our soup making.

Cressy District High School
26 September, 6:30 p.m.
Albert Hall, Launceston
All tickets: Theatre North 6323 3666
SUPPORTED BY: RACT, Frontline, Launceston City Council
Hi Everybody,

I am pleased to announce that we have purchased four Shorthorn Heifers ready for us to use for cattle handling during this year’s show season. We intend to show cattle at Exeter, Launceston, Deloraine, Sheffield and Devonport Shows. These pure bred registered cattle will allow us to extend our learning in Agricultural Lessons and allow us to be more involved with other schools across Tasmania.

What’s going on at the minute?
The lambs are coming thick and fast and we have success with both our Suffolk stud and our cross breed flock. So far this year we have had fewer twins than last year but all lambs are healthy and fit and are great to watch when lamb races start from one end of the paddock to the other!

We have been preparing our facility for the arrival of the ten new calves ready for the Cows Create Careers program for 2013. I am pleased to announce that Grade 7 Marshall/Emery and Grade 5/6 Sturgess will be involved in raising the calves this year.

At the end of last term we spent considerable time making and installing new gates and fences. This has improved our stock movement capabilities and we have made the whole farm more efficient and manageable.

The new pigs should be arriving next week and we are looking forward in trialling our new pig area which is on last year’s market garden area. It is intended that the pigs will dig over the soil and dispose of any old vegetable waste from last year. This will then prepare and condition our ground ready for this year’s planting in Term 4.

The poultry are laying very well and we can’t believe the difference by installing a light into the poultry shed. This light comes on at 4.00 am in the morning and it wakes the hens thus starting the egg laying cycle. Short days impact greatly on the productivity of laying hens and are the main reason why they stop laying over the winter months.

Thanks

Barry and Sabrina Evans – Sheffield – supporting the supply of Shorthorn cattle

Regards,

Mr Richard Goss / Agriculture Studies Coordinator

From 11th to 14th July, forty nine campers and leaders went to Liffey Falls. On 11th July campers arrived at 11.00am. The leaders were there a day earlier than the campers. The leaders introduced themselves. We started to do some ice breakers such as the Shuffle and Have You Ever? so we could get to know each other. We soon had our first rambling and worked in small groups. We moved on to lunch which was made by our lovely cook Lyn, who I would like to give a special thanks to for all of our food. The rest of the campers joined me over the next three days and here are some things that we did. We had indoor, outdoor and night games such as Go, Go Stop, Capture the Noodle, Weeping Angels and Card Commando. We watched School of Rock and we also had a bonfire where Kel, one of leaders, told us his funny story of how he got to Element at 2.00am. We had a bushwalk to a waterfall that was at the back of the camp site, then on the last night we had Liffey’s Got Talent. Seth’s favourite moment was when he and Will threw water balloons at Gabi in Liffey’s Got Talent. McKenzie’s favourite thing was meeting new people and being able to be ourselves around each other. Amber said that it was fun to meet new people but it was really cold.
